

Carbon Valley Consumer Reporter: Area Mayors' Report – For Those of Us Who Don't Attend Meetings

- 2019 Mosquito Control: The Town of Firestone's Public Works Department will provide the Town's mosquito surveillance and control activities for the 2019 season. Mosquito traps are set in strategic locations throughout Town to determine mosquito type and population. Based on this information, Town staff will spray adulticides and larvicides as needed. The Town generally sprays between 8:30 - 10:00 p.m. on Mondays and Thursdays (weather permitting) at the height of mosquito activity, in order to eliminate a larger population of mosquitos. In 2019, weekly Mosquito spraying will begin on Thursday, June 13. Visit www.firestoneco.gov/MosquitoControl for more information.
- On Monday, June 10, 2019 the water line and street replacement project on Wooster Avenue began. Scheduled work will take place Monday through Friday between the hours of 7 a.m. to 7 p.m. and on weekends between the hours of 9 a.m. to 5 p.m. It is anticipated that the work for this project will last through the summer.
