FDP - Amendment No. 2
Barefoot Lakes Filing No. 1
COVER AND NARRATIVE
Town of Firestone
County of Weld
State of Colorado
Sheet 1 of 8

LOCATION MAP

APPROVAL BLOCK

This document is an Amendment to Barefoot Lakes Filing No. 1 FDP, recorded on 3/02/2016 at Rec. #4185100 at the office of Weld County Clerk and Recorder. Because the FDP was administratively approved, this Amendment is also subject to administrative approval by the Town Planner.

The purpose of this Second Amendment is to add language regarding detached garages, revise the planting and wire fence around the SUA operations area, modify the turf area south of Barefoot Lakes Parkway, modify the decorative steel rod sections of the tract fencing, modify the fence gate details for constructability, and provide fencing to protect the Rohn Tower control panel (which is a necessary utility to the operation of Filing 1).

W. M. [Signature] 7-15-17
Town Planner Date

INFORMATION BLOCK**

BAREFOOT LAKES

**COVER AND
NARRATIVE**

Name of application:	Barefoot Lakes Filing No. 1
Type of Submittal:	FDP - Amendment No. 2
Filing #:	1
Phase #:	
First Submittal:	8/5/2016
Revision 1:	9/6/2016
Revision 2:	12/5/2016
Revision 3:	1/19/2017
Sheet	<u>1</u> of <u>8</u>

Architecture Design Standards

(Text to be added to corresponding section on sheets 3-4 of the recorded FDP)

Freestanding Garage

- One garage is permitted per lot; it may be either attached or freestanding. A freestanding garage is not considered to be an accessory structure. Freestanding garages are subject to the same setback requirements as primary structures, unless otherwise described in the setback table. The square footage of the freestanding garage shall not exceed 900 square feet of floor area and may not exceed allowable building heights. Construction materials and color scheme shall be similar to the primary building. Freestanding garages siding a street shall be constructed with enhanced side elevations. Freestanding garages are not permitted as habitable structures.
- Where two detached garages (of adjacent properties) are on the same property line, the faces of the garages shall be offset a minimum of 6 feet so they do not form a continuous wall along the street. Areas between garages must be well-maintained, and are not permitted to be lawn.
- Where two swing loaded garages are adjacent on a shared property line, one of those garages is allowed a decreased setback of 9 feet.
- The configuration of garage and driveway must allow vehicles parked in the driveway to not extend into the front or side right-of-way.

Landscape Design Standards

(Text to be added to corresponding section on sheets 22 of the recorded FDP)

Guiding Principles

- Fence Planting (Corner Lots & Alleys)
 - In alleys, Lane Planting Areas (2 foot minimum zone between alley and rear yard fence and/or property boundary) must be landscaped. Shrubs and ground cover plantings shall comprise no less than twenty percent of the Lane Planting Areas whether or not a fence is installed. Lane planting zones must utilize shrubs and perennials that do not exceed 3 to 4 feet in height and are tolerant of salt and snow loads. Lane Planting Areas may not be paved, but may be stone cobble, crusher fines, or approved equal. Turf is not recommended. Do not violate clearance requirements at electrical equipment.

Signage Standards

(Text to be added to corresponding section on sheet 4 of the recorded FDP - Amendment No. 1)

1. Residential Identity Sign Standards:

3. **Message Face Area Measurement:**

Message face area is measured on one side of sign. Signs can be two-sided.

- All permanent signs shall be maintained to be in good condition. Finishes, position, and messages shall be repaired in a timely manner or removed.

Fence Standards

(Text to be added to corresponding section on sheet 85 of the recorded FDP)

Fence Standards

- Side yard fencing may not extend past the wing fence unless it connects to an adjacent wing fence closer to the street. Side yard fencing between residential lots may not extend past the wing fence closest to the street. Side yard fencing between a residential lot and a tract may extend partly beyond wing fence and step down as indicated in this FDP. Fenced-in front yards are prohibited.

9. Gates

- A gate must be installed in the wing fence between a residence and a garage.
- A gate must be installed in the wing fence at the narrowest area between a garage and side yard or between a residence and side yard.
- A gate is not required in the wing fence between a garage and side yard when the garage is closer to the street than the residence.
- Open gates may not obstruct the sidewalk or encroach on neighboring property.

BUILDING SETBACK TABLE (UPDATE TO CURRENT TABLE):

(Text to be added to corresponding section on sheet 4 of the recorded FDP, and sheet 1 of the recorded FDP - Amendment No. 1)

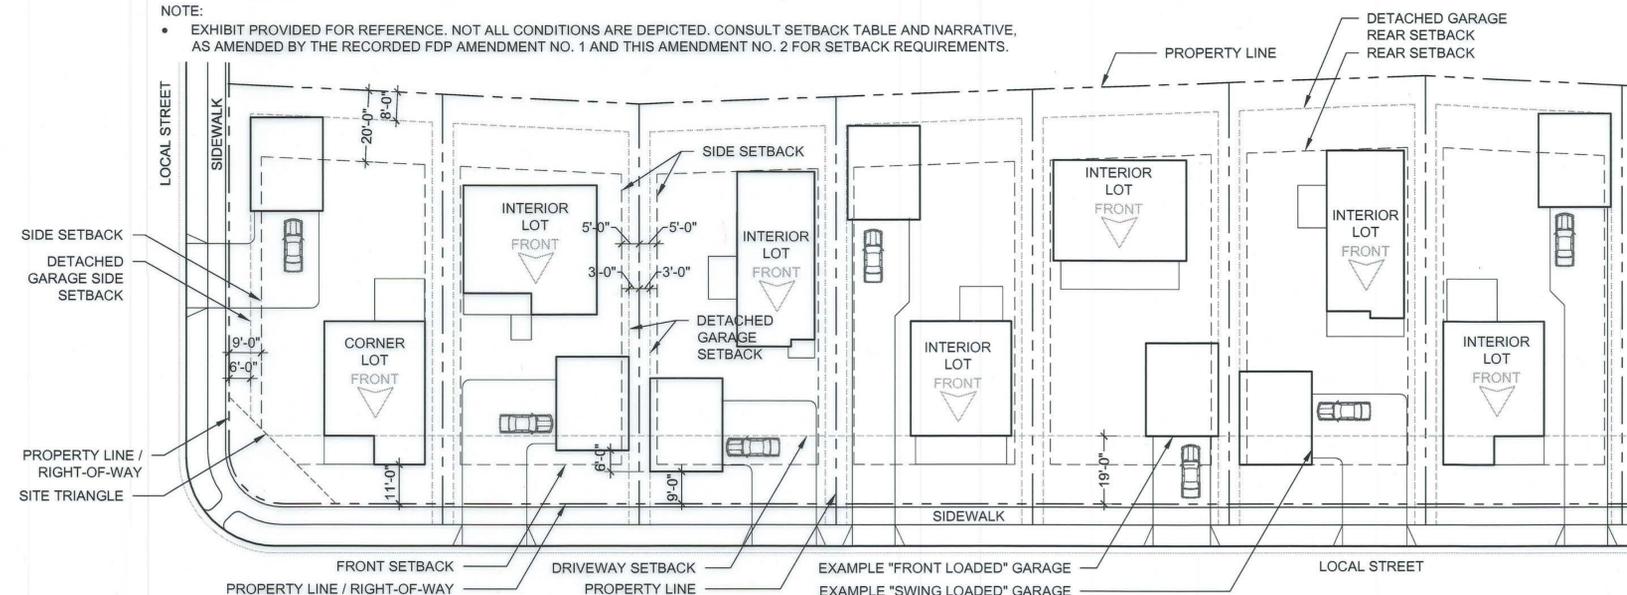

REQUIREMENT DESCRIPTION	STANDARD (Feet)
Minimum Setbacks for Primary Structure (Setback to Right-of-Way, Feet)	
Freestanding Garage – Front	19 **
Freestanding Garage – Side Interior (at Adjacent Lot or Non-Alley Tract)	3
Freestanding Garage – Side (at Alley Tract)	5
Freestanding Garage – Side (at Local Street)	6
Freestanding Garage – Side (at Collector/Arterial Street)	11
Freestanding Garage – Rear, at interior lot and at alley	8
** The 19 foot garage setback shall not be required if the configuration of the garage and driveway allows vehicles parked in the driveway to not extend into the right-of-way, as in the example diagrams. In the event that two detached garages are adjacent on a shared property line, one of those garages is allowed a decreased front setback as described in the "Freestanding Garage" section of the Architectural Design Standards.	
Encroachments/Projections into setbacks (Feet)	
Freestanding Garage – Eave at side of lot	6 inches

TYPICAL LOT SETBACK DIAGRAMS FOR LOTS WITH DETACHED GARAGES

(Diagram to be added to sheet 4 of the recorded FDP)

NOTE:

- EXHIBIT PROVIDED FOR REFERENCE. NOT ALL CONDITIONS ARE DEPICTED. CONSULT SETBACK TABLE AND NARRATIVE, AS AMENDED BY THE RECORDED FDP AMENDMENT NO. 1 AND THIS AMENDMENT NO. 2 FOR SETBACK REQUIREMENTS.

PLANTING REFERENCE NOTES

- Indicated pedestrian walk by others.
- Existing curb and gutter to be removed, REF: Civil drawings
- Final location to be verified in field by Landscape Architect
- Number in parenthesis indicates square footage of plant type MSG. Area overlaps with other plant types indicated graphically on plan.
- Subgrade slurry wall. Do not damage, do not plant trees above.
