**RE: Reclamation Assessment Notice**  
Well(s): Hall 42-12  
Facility: Not Applicable  
Township 2N, 68W Range, of the 6th P.M.  
Section 12: SENE  
Weld County, Colorado

Dear Town of Firestone,

PDC Energy, Inc., ("PDC") operated the above-listed facilities, formerly located on your property. These facilities have been permanently plugged and abandoned and all associated equipment removed. Per Colorado Oil and Gas Conservation Commission ("COGCC") guidelines, PDC, as the former Operator, is responsible for an oil and gas location until it has passed a COGCC inspection for final reclamation. At this time PDC does not have record of this location undergoing a COGCC inspection and needs to determine its current reclamation status.

PDC has secured the services of APEX Companies, LLC. They are a third party contractor that is qualified to determine the status of site reclamation and vegetation regrowth. The contractors will need to assess the area around the well(s) and associated facilities and collect photos of the location to determine vegetation growth and the final reclamation status of the site. The contractors will not disturb your property in any manner and will only perform a visual assessment. We are planning to perform the assessment between the dates of May 16<sup>th</sup> through June 14<sup>th</sup>, during the hours of 8 A.M. to 5 P.M.

For any questions concerns regarding this project, please contact:

PDC ENERGY, INC.
